

Diskeeper Corporation Europe

Diskeeper Maximises Windows Server 2008 Performance and Reliability

Diskeeper Corporation Europe announces that its multi-awarded defragmenter Diskeeper® 2008 Server is now certified for Windows Server 2008. Windows Server 2008 is the latest release of Microsoft server platform that features automation of daily tasks, improved security and virtualization to improve hardware utilization and server availability. Diskeeper® 2008 Server Edition shifts your servers into top gear, debugging fragmentation-based problems in real time, as they occur, allowing IT administrator to focus on more important system maintenance tasks. Diskeeper 2008 Server edition features:

InvisiTasking™ eliminates fragmentation in real time without affecting system resources or intruding on system demands.

NEW! Complete file and free space defragmentation: defragmentation in the most extreme of conditions — even if your systems have only a one or two percent of free space left available or a file in millions of fragments, Diskeeper® 2008 can restore lost performance and save the applications reliant on those files from major reliability failures.

NEW! Volume Shadow Copy Service (VSS) Compatibility mode

EXCLUSIVE I-FAAST™ 2.0 (Intelligent File Access Acceleration Sequencing Technology) automatically boosts access speeds for the most commonly used files by 10% to 80%.

NEW! Real-time defragmentation automatically handles fragmentation as it occurs, providing maximum system performance at all times!

NEW! Fragshield™ 2.0 boosts reliability and availability by automatically preventing crash-inducing fragmentation of critical system files. Diskeeper® 2008 Server edition will enhance the performances and reliability of Windows Server 2008. Companies will experience substantial benefits that will range from higher levels of productivity to a proportional raise in profits.

Obtain an exclusive copy of the latest white papers and a free trial version of Diskeeper® 2008 Server for Windows Server 2008 at www.diskeepereurope.com.

About Diskeeper Corporation - Innovators in Performance and Reliability Technologies™:

With over 29 million licences sold, home users to large corporations rely on Diskeeper software to provide unparalleled performance and reliability to their laptops, desktops and servers. Diskeeper Corporation further provides up-to-the-minute data protection and instant file recovery with **Undelete®**.
